

SARTH JAYESH PATEL

United States | +1 4479022091 | sarthp870@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

- Data Analytics Professional with proven track record of delivering data-driven insights and technical solutions across the supply chain, retail, and finance sectors
- Adept at collaborating with non-technical stakeholders to translate complex business problems into scalable technical deliverables
- Technical toolkit includes PowerBI, Python, Microsoft Fabric, Azure, with a specialized focus on data modeling, and governance.

EDUCATION

University of Illinois Urbana Champaign, Champaign, US

Master of Science in Information Management

Courses: Information Consulting, Data Warehousing and Business Intelligence, Data, Models and Information

University of Mumbai, India

Bachelor of Technology in Computer Engineering

Courses: Advance Database Management Systems, Data Mining, Big Data Analytics, Machine Learning, Artificial Intelligence

PROFESSIONAL EXPERIENCE

Data Analytics Intern | TopBuild | U.S.A

May 2025 – Present

- Census Reporting & Analytics - Automated Census reporting pipeline using **Python** and **Microsoft Fabric Lakehouse**, delivering **6+ Power BI** dashboards using **DAX**, reducing manual FP&A workload by **7+ hours weekly**.
- Developed supply chain health dashboards to monitor inventory levels, tracking Inventory Turnover, Days of Supply (DOS), and Forecast Accuracy (MAPE) using advanced **DAX** to identify stockout risks and excess capital.
- Streamlined **Ad hoc** and recurring leadership reporting for 400+ items, provided data-driven insights across multiple retail channels that improved visibility into Private Brand performance and supply chain bottlenecks.
- Enhanced **Power BI** governance by deploying **Row-Level Security (RLS)** and a role matrix, ensuring 98% of users access permissions.
- Partnered with business stakeholders, and project managers to gather functional requirements, translate them into **Jira** Epics and user stories, and validate solutions through iterative testing—ensuring reporting and application workflows aligned with business.

Technical Consultant | Business Intelligence Group | Champaign, IL

Jan 2025 – May 2025

- Delivered a **12%** MoM sales increase by reporting infrastructure from the ground up using **Tableau** and **SQL** to provide real-time insights into the product, marketing funnels, and business KPIs
- Designed and implemented **A/B** experiments for products to improve the conversion rate by 19 basis points and reduce churn by 12 basis points
- Automated repetitive data scrubbing tasks using **VBA macros** and advanced **Power Query** transformations, saving the department **15+** hours of manual work weekly.
- Developed a unified reporting framework by utilizing **XLOOKUP** and **INDEX/MATCH** to consolidate data from multiple workbooks into a centralized master sheet for **Pivot Table** analysis.
- Built a **logistic regression** model to help the SEO team decide which keywords to target, resulting in a 15% lift in QoQ site visitors.
- Optimized SQL **Stored Procedures and Views** by implementing **Common Table Expressions (CTEs)** and query tuning, reducing execution time by 40% to accelerate decision-making

Business Intelligence Analyst Intern | Webomatic Softech Private Limited | India

Jun 2022 – Jan 2023

- Built a solution processing **20M+ records** from **AWS S3**, designing a robust **Star Schema**, **5+** Power BI dashboards, enabling leadership to track KPIs across procurement, and sales and **identified over \$50K in supply chain cost savings**.
- Led the design and implementation of company-wide BI reporting standards, supported by clear documentation and standardized templates that enabled consistent adoption, improved collaboration, and strengthened stakeholder trust in analytics.
- Developed parameterized **Paginated Reports** to allow regional managers to generate custom, print-ready sales performance snapshots and invoice-style ledger reports.
- Centralized employee and payroll data from **MySQL, Excel, and CSV** sources by staging in **Amazon S3**, automating **AWS Glue ETL jobs** to transform and load into **AWS Redshift**, ensuring data governance and quality.
- Automated **8+** sales performance and revenue reports using **SQL Server** and **Microsoft Report Builder**, eliminating **30+** hours of manual reporting per week.
- Performed **data validation checks** and supported **data quality** initiatives by reconciling logistics records using **Excel (SUMIFS, COUNTIFS, LOOKUPS)** and **SQL**, ensuring **governance** standards were met.

PROJECTS

Adventure Works Data Analytics | Tech – Azure, Databricks, PowerBI | [Github](#)

- Built a full-stack data pipeline in **Azure**, integrating API data using **Azure Data Factory**, transforming raw data through bronze and silver layers with **PySpark** in **Databricks**, and delivering a scalable data warehousing solution in **Azure Synapse Analytics** integrated with **Power BI** for enterprise-grade analytics and visualization.

Heart Diseases Classification Using Machine Learning | Tech- Python, Machine Learning | [Github](#)

- Designed and deployed a machine learning pipeline in Python to classify heart disease from **1,768+** patient records, applying EDA (**Numpy & Pandas**), feature engineering, and cross-validated **Random Forest** models that achieved 85% accuracy, supporting data-driven healthcare insights.

SQL Server Data Warehouse Implementation | Tech – SQL, SSIS | [Github](#)

- Implemented a modern **SQL Server** Data Warehouse by developing ETL pipelines with **T-SQL** and **SSIS** (batch processing, stored procedures, full-load ingestion), designing Medallion Architecture (Bronze, Silver, Gold) with star schema modeling, and optimizing performance using views, indexing, and query tuning for scalable analytics.

SKILLS SUMMARY

SQL · Power BI · Python · Microsoft Fabric · PowerApps · Jira · Confluence · Microsoft Excel · OracleEBS · Tableau · Qlik · Alteryx · Dbt · SAS · Statistics · SDLC · Agile/Scrum · Technical Documentation · Azure (Databricks, Data Factory, Form Recognizer) · Snowflake

CERTIFICATIONS
